ENCLOSURES: (1) Line drawing of radar installation and coast defense position.

REQUIREMENT NO.: RR/HTA/E/R81/50

Request analysis of radar and associated installations, including sketches of installations, roads, and possible connection with nearby gun emplacements.

REMARKS:

25X1

A study of photography [] reveals a radar installation (probable TOKEN) 11.5 nautical miles SSW of Sovetskaya Gavan Airfield on high ground overlooking the Tatarskiy Strait. The installation includes a radar site, situated on a small mesa, and an adjacent permanent support facility. A coast defense position lies one-half nautical mile away, between the radar installation and the coast.

ed

The enclosed graphic is number/according to text references.

The radar site consists of the following items:

1. Probable TOKEN radar.
2. Possible FISHNET radar.
3. Four revetted vehicle shelters, [] (outside dimensions).
4. Dunker, []
